

All Natural Goats Milk Soap

Our Goat's Milk Soap contains only natural ingredients. Other soap makers may add colors or perfumes, but we prefer to keep mine 100% natural. This aids in preserving all the wonderful properties of the Goat's Milk as well as allowing those who are allergic to scents and dyes to use our soap.

Our soap contains coconut oil, olive oil, vegetable oil, pure and undiluted Goat's Milk, as well as quality herbs and essential oils. We also use lye in our soap, which is essential for saponification process. This is where a chemical reaction occurs when combining oils and fats with an alkali (in this case the Goat's Milk), which then turns it into a bar of soap. Once the curing process is complete, the lye is no longer present. You are left with mild, pure, nourishing, moisturizing soap. It's true, no lye... no soap!

We also include quality herbs and essential oils which have the properties ranging from promoting calmness and easing tension, to soothing tired muscles and benefiting the immune system by encouraging stillness and tranquility.

All soaps contain: Olive Oil, Rice Bran Oil, Coconut Oil, Bees Wax, Goats Milk, Vegetable Shortening, Lye, flowers and spices (depending on scent), and oils (depending on scent).

All products are Gluten-Free.

Goat Milk has been used since ancient times as a natural cleanser. It is one of the finest moisturizers and has excellent emollient properties. It contains vitamin A, and B including riboflavin, niacin, B6, B12.

Alpha-hydroxy acids contained in goat milk are believed to have rejuvenating effects on skin cells and the rich butterfat softens and moisturizes. Alpha-hydroxy acids penetrate the top layers of the skin, epidermis and upper dermis, to achieve exfoliation (sloughing of old skin cells). Exfoliation stimulates the skin and healthy cells are regenerated. The effect essentially is "anti-aging." The skin is smoother and softer with an overall lessening of fine wrinkles and skin discoloration. The hydroxy acids are also used to improve scaling, precancerous growths (actinic keratosis) on sun-damaged skin. In addition, there is also great benefit with acne. Dead skin cells are exfoliated, opening the pores. Alpha hydroxy acids have been used for thousands of years as a skin rejuvenating product. Goat milk actually 'feeds' the skin and permeates through the cell walls delivering calcium. The PH of goat milk is closer to skin's own natural PH which reduces the surface tension of the skin, allowing it to absorb the moisturizing

effects of goat milk and the glycerine which is a natural by-product of soap-making.

Soap Scents

Amazing Almond

Worried about choosing the right product for your skin type? With our Amazing Almond bars, there's no need to fret!

Almond oil is suitable for any [skin type](#). [Beautiful skin](#) is just a bar of our incredible soap away! Check out these amazing benefits of almond oil, and imagine what it could do for your skin!

- ∞ Improves complexion and retains glow
- ∞ Moisturizes deeply
- ∞ Soothes skin irritation and inflammation
- ∞ Delays aging process
- ∞ Lightens dark circles
- ∞ Relieves dry and itching skin
- ∞ Nourishes the skin, making it smooth and soft
- ∞ Heals chapped lips and body rashes

We use natural Almond oil and ground up almonds for our Amazing Almond bars! *The softening attributes will make your skin silky smooth! It is also great for exfoliation!*

Autumn Lodge

Our Fall-scented soap! This scent will take you to a fireside glow of Fir needles, Patchouli, freshly-cut wood, and vanilla. *Sit back and relax as you watch the colorful leaves float to the ground!*

Awesome Apple [Not Available]

Of all the numerous varieties of apples, Granny Smiths are best for the [skin](#).

Don't get us wrong, all apples are good for you! It's just that this variety in particular contains abundant amounts of both collagen and elastin. Which are both essential for youthful looking skin.

We use natural apple oil and ground up Granny Smith peel in our Awesome Apple bars! *Let this cheery apple scent put a spring in your step!*

Barber Shop

This is our old-time shaving scent. Get a close shave the old-fashioned way. You can use a shaving brush to lather it on, or apply straight to the skin. *Use this soap to take you back to a relaxed pace of an earlier time!*

Calendula **[Not Available]**

We have combined the extract from Calendula as well as its petals to create this *remarkable healing soap!*

Cranberry

We all get dry skin from time to time. The cold and dry winter months can be especially hard on our skin, making it dry and chapped. Don't despair! Our

Cranberry bars are to the rescue! Cranberry oil is noted for its unique natural balance of omega-3, omega-6, and omega-9 fatty acids, as well as its high content of natural antioxidants. The oil is rich in natural vitamin E, a potent antioxidant that helps preserve its freshness. Cranberry oil is absorbed easily through the skin, acts as a superb moisturizer, and helps to relieve itchy, scaly, irritated skin. Cranberry oil is also full of vitamin C, which helps to build collagen.

This keeps our skin looking tight and healthy and is a great help for aging skin and wrinkles.

We use natural cranberry oil and ground up rose hips in our cranberry bars! *The sweet, tart smell will keep a smile on your face all day!*

Gardeners

Is great for getting the dirt off of the gardener's hands. This soap is great for anyone who plays in the dirt or gets a little greasy. It combines Lavender, Tea Tree, & Rosemary essential oils, along with cornmeal and ground up rosemary. It is the most exfoliating bar that we offer!

The Skin Care benefits of lavender oil can be attributed to its antiseptic and antifungal properties. It is used to treat various skin inflammations, as it speeds the healing of cuts, blisters, and sunburns.

Lavender essential oil is also an excellent remedy for various types of pains, including those caused by sore muscles and joint pain.

Tea Tree Oil is a gentle, natural method of controlling skin irritations and infections. The health benefits of Tea Tree Essential Oil are many, and include properties such as being antibacterial, antimicrobial, antiseptic, antiviral, and fungicidal. Therefore, Tea Tree Oil is an excellent natural remedy for hundreds of bacterial and fungal skin ailments such as acne, abscess, oily skin, blisters, sun

burns, athlete's foot, insect bites, rashes, dandruff and other minor wounds and irritations. It can even be used as an insecticide and to control lice! Even though tea tree oil is considered to be a very powerful antiseptic, it is non-toxic and non-irritating to the skin.

Rosemary essential oil is a great first-aid oil. Having the highest hydrogen content of all the essential oils makes rosemary essential oil warming and stimulating. Applied to the skin, rosemary essential oil helps strengthen the capillaries and has a rejuvenating effect. It is most beneficial for improving blood circulation and relieving chronic symptoms of fatigue and stiff joints. Dry skin also benefits from its many skin nourishing qualities.

Ginger Spice

Natural ginger oils along with a mixture of ginger, cinnamon, nutmeg and clove create *that delicious smell of ginger spice cookies* in our wonderfully scented Ginger Spice Soap.

Ginger oil, being an essential oil, can be stimulating and therefore relieves depression, mental stress, exhaustion, dizziness, restlessness and anxiety. The juice of ginger is useful in controlling dandruff and is also an antiseptic.

Glorious Grapefruit

Fresh grape fruit rinds along with grapefruit essential oil combine to create our glorious grapefruit soap.

Grapefruit essential oil has great uplifting and relaxing effects on the mind. It induces a positive feeling and can relieve anxiety and stress. Its scent stimulates the brain, making you more alert and leaving you feeling refreshed. The antiviral and antimicrobial properties of grapefruit make it a good disinfectant, which is particularly good for treating oily skin and acne.

Let the fresh citrusy scent awaken your senses!

Groovy Patchouli

We use Natural Patchouli essential oil to make our Patchouli bars! As a tropical member of the mint family, grown in the East and West Indies, Patchouli smells very earthy and natural. It has many benefits owing to its astringent, antidepressant, antiseptic, and disinfectant properties.

As an astringent, Patchouli Oil can be used to keep your skin healthy and glowing. It is known to be effective in clearing the skin, and removing blemishes and scars. Applying on a regular basis will ensure that your muscles remain taut, your skin remains tight, and your hair follicles remain healthy.

As an antiseptic and disinfectant, Patchouli Oil is often used to fight off infection. Application on the affected area relieves inflammation and inhibits fungal and bacterial growth. It also ensures that open wounds and cuts remain clean.

Patchouli oil is also an extremely effective antidepressant. It is often used in aromatherapy to uplift the mood, strengthen the mind, and relax the body. Owing to its mood-enhancing properties, patchouli oil has also been used as an aphrodisiac. In fact, during the swinging sixties, it became popular for this very reason. *Take a trip back through time and revisit the groovy 60's!*

Holiday Splendor

We use a mixture of several oils to create this wonderful Holiday soap and adding ground up rose hips gives us that perfect red color! *The familiar smells of pine, clove, dried fruits and warm cinnamon sticks will make your home a holiday haven!*

Lemon Lift

Luxurious Lavender

We use natural Lavender essential oil and flowers for our Luxurious Lavender bars! *With its magical calming effects, they are perfect for those long, soaking baths!*

Mint Melody

We use natural Peppermint and Spearmint essential oils along with fresh mint leaves to make our Mint Melody bars!

Peppermint contains menthol which is good for the skin. It can give a cooling effect. Further it nourishes dull skin and improves oily skin. It has an effect on lessening stress and anxiety. It's good for headaches and nausea. Spearmint oil is a natural antiseptic! It's good for acne, migraines, stress, and depression! *You deserve a refreshing mint experience!*

Mocha Java

Description Coming Soon

Oatmeal and Honey

Oatmeal and Honey combined are very good for babies and people with sensitive skin!

This bar will provide nourishment to your skin. It's great for exfoliating. This soap can help balance the pH of your skin and is great for skin that has suffered from too much sun or dry weather.

Honey has the ability to attract and seal in water, keeping your skin soft. It also is a natural antiseptic and can reduce blemishes. It will not agitate the skin. Use this bar for the most sensitive and agitated skin!

The Honey and Oatmeal scent can also be very relaxing!

Orange and Clove

A nice citrusy scent can be invigorating and rejuvenating during a bath or shower. Orange oil soap is an antiseptic and anti-inflammatory. It can have an aphrodisiac effect and can remove toxins from the skin. It is a natural antidepressant.

When used on the skin it can help alleviate acne and other skin problems. A topical form of orange oil, such as soap, when used on a regular basis, may help protect

the skin from sun damage and lighten age spots.

Due to clove oils antiseptic properties it is useful for wounds, cuts, scabies, athlete's foot, fungal infections, bruises, prickly heat, acne, etc. It can also be used for insect bites and stings! Clove oil is often recommended for skin care, especially to acne patients! It has an aphrodisiac effect in nature and hence serves as an excellent stress reliever! It has a stimulating effect on the mind and removes mental exhaustion and fatigue. Clove oil can also be helpful for insomnia patients. It can be used for treating mental problems such as loss of memory, depression, and anxiety.

The essential oils of orange and clove mingle with orange peel and ground clove to bring a *fresh and warm enlightenment to your senses*.

Passion Fruit

We use natural passion fruit oils along with ground up passion fruit rinds to make our wonderful Passion Fruit bars!

Passion Fruit oil is a superior emollient that is rich in vitamin C, calcium, potassium, phosphorus and essential fatty acids. The addition of ground passion

fruit rinds aids in removing dead skin cells and opens the pores, allowing the moisturizing properties of the essential fatty acids to deeply nourish the skin and help to treat dry skin conditions. In bathing and massage application,

Passion Fruit Oil is an excellent choice to ease muscular aches and swelling due to its anti-inflammatory properties. It is also beneficial for the scalp, strengthening hair and encouraging healthy hair growth. *Treat yourself to an amazing tropical scented vacation, without leaving your home!*

Pine Breeze

This is an excellent Zen fragrance! It has citrus and pine accords, with some tropical fruit and wood tones on the background! *Use this bar for whenever you are feeling particularly stressed and just need a relaxing respite in your day.*

Pure Serenity

Pure Serenity is our ultra natural bar of soap. This bar has no essential oils or herbs. It is made completely of our pure and natural goats' milk and vegetable fats. The ingredients are Olive Oil, Rice Bran Oil, Bees Wax, Vegetable Shortening, and our wonderful goats' milk.

Tea Tree and Eucalyptus

We add tea tree and Eucalyptus essential oil along with ground up eucalyptus in our Tree Tea and Eucalyptus bars!

Tea Tree Oil has wonderful properties that make it a popular natural agent for curing all three types of infectious organisms: fungus, bacteria, and virus. More importantly, it is known to effectively fight a number of infections that are resistant to some antibiotics. *Therefore, Tea Tree Oil is an excellent natural remedy for hundreds of bacterial and fungal skin ailments such as acne, abscess, oily skin, blisters, sun burns, athlete's foot, insect bites, rashes, dandruff and other minor wounds and irritations.*

Eucalyptus oil has germicidal and antibacterial effects.

The principal active ingredient in eucalyptus oil is "[eucalyptol](#)" which has strong germicidal and disinfectant properties and helps to relieve coughs and fevers. Eucalyptus oil is an effective analgesic and is often used in preparations designed to relieve muscle, nerve and joint pains. On a psychological level, it helps to combat exhaustion and dispels mental sluggishness. It also has a cooling and stimulating effect on both mind and body.

For wounds and abscesses, the strong germicidal effects of the eucalyptus oil can help heal wounds, burns. Ulcers and insect bites or stings. It will also help reduce the number of germs in the air!
